

APPIN WIND FARM LTD

ELECTRICITY ACT 1989

TOWN AND COUNTRY PLANNING (SCOTLAND) ACT 1997

THE ELECTRICITY WORKS (ENVIRONMENTAL IMPACT ASSESSMENT) (SCOTLAND) REGULATIONS 2017

Notice is hereby given that Appin Wind Farm Ltd (“the Company”) with company registration number 12672772, having its registered office 19th Floor, 22 Bishopsgate, London EC2N 4BQ has submitted additional information to the Scottish Ministers in relation to the application for consent under section 36 of the Electricity Act 1989 to construct and operate a wind farm known as Appin Wind Farm (“the Proposed Development”), located in Dumfries and Galloway, approximately 6.2 km north of Moniaive and 14.8 km east of Carsphairn (Central Grid Reference BNG 272887, 597709). The installed capacity of the proposed generating station would exceed 50 MW, comprising up to 9 turbines with a maximum ground to blade tip height of 200 metres, and has been subject to Environmental Impact Assessment (EIA) under the Electricity Works (Environmental Impact Assessment) (Scotland) and an EIA Report has been produced in May 2025.

The Company has also requested a direction under section 57(2) of the Town and Country Planning (Scotland) Act 1997 that planning permission for the development be deemed to be granted.

The additional information now being submitted includes information in the form of a Grid Connection Appraisal, relating to the prospective grid connection corridor and associated grid connection infrastructure to connect the Proposed Development to the National Grid. Since the grid connection works are necessary for the Proposed Development to operate as proposed, and would not otherwise be built, there is accordingly a requirement to provide environmental information (where available) on their associated likely significant effects, and carry out related consultation under the EIA Regulations. For clarification, the grid connection works are not the subject of the s36 application.

The Additional Information provides assessment of:

- The solus effects of the prospective grid cable works in order to form an in-combination assessment of the wind farm and grid connection works;
- The in-combination assessment of the wind farm with the prospective grid cable works; and
- The cumulative assessment of the wind farm and the prospective grid connection works with other wind farms and their grid connection works where such information is available.

It is also supported by a Planning Statement Update.

A copy of the Additional Information and Planning Statement Update, alongside all the application documentation and the EIA Report (‘the information’) is available for public inspection, on the application website <https://projects.statkraft.co.uk/appin/planning-application-documents/> or on the Energy Consents Unit Portal at www.energyconsents.scot under application reference ECU00003447.

The additional information and Planning Statement Update is also available for public inspection

in person, free of charge, during normal office hours at:

Location	Opening Hours	Address
Dumfries and Galloway Council	Monday – Friday 0900 – 1700	Main Reception Kirkbank House, English Street, Dumfries, DG1 2HS
Glencairn Memorial Institute	Monday – Sunday 0900 – 1800. <i>Times may vary, please check the online booking page on the Glencairn Memorial Institute website, https://www.glencairmemorialinstitute.org/bookings.</i>	Chapel Street, Moniaive, Thornhill, DG3 4EJ

Copies of the additional information and the Planning Statement Update may be obtained from Appin Wind Farm Limited (telephone: 0800 772 0668 / email (ukprojects@statkraft.com) for the cost of £100.

Any new representations on the additional information may be submitted via www.energyconsents.scot, using the relevant Project Name and/or ECU reference number. Please note that you must be in possession of a working email address to submit a representation virtually.

If you would prefer to submit your representation by post, please send to the Scottish Government, Energy Consents Unit, 4th Floor, 5 Atlantic Quay, 150 Broomielaw, Glasgow, G2 8LU, identifying the proposal and specifying the grounds for representation. Written representations should be dated, clearly stating the name (in block capitals) and full postal address of those making representations.

All representations should be received not later than Thursday 13th August 2026. Scottish Ministers may be able to consider written representations received after this date.

Any subsequent additional information which is submitted by the Company will be subject to further public notice in this manner, and representations to such information will be accepted as per this notice.

Where Scottish Ministers decide to exercise their discretion to do so, they can cause a public inquiry to be held.

Scottish Ministers will determine the application for consent in one of two ways:

- Grant consent, with or without conditions attached; or
- Refuse the proposal.

General Data Protection Regulations

The Scottish Government processes representations under the Electricity Act 1989. To support transparency in decision making, the Scottish Government publishes online at www.energyconsents.scot.

A privacy notice is published on the Help page at www.energyconsents.scot. This explains

how the Scottish Government processes your personal information. If you have any concerns about the processing of your personal information by the Scottish Government, please email EconsentsAdmin@gov.scot or write to Scottish Government, Energy Consents Unit, 4th Floor, 5 Atlantic Quay, 150 Broomielaw, Glasgow, G2 8LU.
